ICPEMC

INTERNATIONAL COMMISSION FOR PROTECTION AGAINST ENVIRONMENTAL MUTAGENS AND CARCINOGENS

A Method for Combining and Comparing Short-term Genotoxicity Test Data

A Report From ICPEMC Committee 1

A method for combining and comparing short-term genotoxicity test data: Preface
A Report from ICPEMC Committee 1
Members of Committee 1: D.J. Brusick, J. Ashby, F.J. de Serres, P.H.M. Lohman, T. Matsushima, B.E. Matter, M.L. Mendelsohn, D.H. Moore II, S. Nesnow and M.D. Waters 1

A method for comparing and combining short-term genotoxicity test data: The basic system
P.H.M. Lohman, M.L. Mendelsohn, D.H. Moore II, M.D. Waters, D.J. Brusick, J. Ashby and W.J.A. Lohman (The Netherlands, U.S.A., Great Britain) 7

A method for comparing and combining short-term genotoxicity test data: The optimal use of dose information
D.H. Moore II, M.L. Mendelsohn and P.H.M. Lohman (U.S.A.) 27

A method for comparing and combining short-term genotoxicity test data: Results and interpretation
M.L. Mendelsohn, D.H. Moore II and P.H.M. Lohman (U.S.A., The Netherlands) 43

[*end of special issue*]

Obituary

Roberto Alcantara Gomes (1941–1991)
R. Meneghini and A.A. da C. Leitão (Brazil) 61

Research Papers

Radical-mediated modification of deoxyguanine and deoxyribose by luteoskyrin and related anthraquinones
S. Akuzawa, H. Yamaguchi, T. Masuda and Y. Ueno (Japan) 63

Simultaneous evaluation of genotoxicity data from different sources: a multivariate statistical approach
R. Benigni and A. Giuliani (Italy) 71

Effects of various chemical compounds on spontaneous and hydrogen peroxide-induced reversion in strain TA104 of *Salmonella typhimurium*
J.-S. Han (U.S.A.) 77

Effects of L-ascorbic acid on the mutagenicity of ethyl methanesulfonate in cultured mammalian cells
H. Kojima, H. Konishi and Y. Kuroda (Japan) 85

Induced crossing-over in *Drosophila melanogaster* germ cells of DNA repair-proficient and repair-deficient (*mei-9*^{L1}) males following larval feeding with 5-azacytidine and mitomycin C
G. Pontecorvo, A. Avitabile, G. Esposito, G. Migliaccio and M. Carfagna (Italy) 93
Poly-D-lysine in G_2 potentiates chromosome damage induced by X-rays and mitomycin C in CHO cells
F. Cortés, S. Mateos, T. Ortiz, N. Panneerselvam and J.C. Mateos (Spain) 99
The gene encoding hypoxanthine-guanine phosphoribosyltransferase as target for mutational analysis: PCR cloning and sequencing of the cDNA from the rat
J.G. Jansen, H. Vrieling, A.A. van Zeeland and G.R. Mohn (The Netherlands) 105
The induction of mitotic chromosome malsegregation in *Aspergillus nidulans*. Quantitative structure activity relationship (QSAR) analysis with chlorinated aliphatic hydrocarbons
R. Crebelli, C. Andreoli, A. Carere, G. Conti, L. Conti, M.C. Ramusino and R. Benigni (Italy) 117
On spontaneous mutagenesis and cell cultivation conditions
K.A. Lyubimova and A.I. Chepurnoy (USSR) 135
Griseofulvin-induced aneuploidy and meiotic delay in female mouse germ cells. I. Cytogenetic analysis of metaphase II oocytes
C. Tiveron, F. Marchetti, B. Bassani and F. Pacchierotti (Italy) 143
Griseofulvin-induced aneuploidy and meiotic delay in female mouse germ cells. II. Cytogenetic analysis of one-cell zygotes
F. Marchetti, C. Tiveron, B. Bassani and F. Pacchierotti (Italy) 151
Molecular mechanisms of the formation of DNA double-strand breaks and induction of genomic rearrangements
R.I. Salganik and G.L. Dianov (U.S.S.R.) 163
Combined mutagenicity of methyl methanesulfonate and ethyl methanesulfonate in Chinese hamster V79 cells
H. Kojima, H. Konishi and Y. Kuroda (Japan) 171
Structural and electronic properties of MX compounds related to TA100 mutagenicity. A semi-empirical molecular orbital QSAR study
K. Tuppurainen, S. Lötjönen, R. Laatikainen and T. Vartiainen (Finland) 181
In vivo human somatic mutation: frequency and spectrum with age
S.A. Grist, M. McCarron, A. Kutlaca, D.R. Turner and A.A. Morley (Australia) 189
The genotoxicity of chromium(VI) oxide in the wing spot test of *Drosophila melanogaster* is over 90% due to mitotic recombination
U. Graf, O.-S. Heo and O.O. Ramirez (Switzerland, Korea, Mexico) 197
Bio-antimutagenic activities of vitamin B_6 in *E. coli* and mouse peripheral blood cells
K. Shimoi, E. Akaiwa, N. Mori, M. Sano, Y. Nakamura and I. Tomita (Japan) 205
A comparative study of the potentiating effect of caffeine and poly-D-lysine on chromosome damage induced by X-rays in plant cells
S. Mateos, N. Panneerselvam, J.C. Mateos and F. Cortés (Spain) 215
A mutational hotspot in the *aprt* gene of Chinese hamster cells
A. Belouchi and W.E.C. Bradley (Canada) 221
Chromosomal changes in Chinese hamster AA8 cells caused by podophyllin, a common treatment for genital warts
L.R. Ferguson and A. Pearson (New Zealand) 231
Mutational activation of H-*ras* oncogene transformability by alkylnitrosourea-induced DNA damage
E.F. Yamasaki, D.P. Salamon and A.A. Wani (U.S.A.) 241
Predictive assay for rodent carcinogenicity using in vivo biochemical parameters: operational characteristics and complementarity
K.T. Kitchin, J.L. Brown and A.P. Kulkarni (U.S.A.) 253
Responsiveness of tumorigenic and non-tumorigenic CHEF18 Chinese hamster cells to 1-β-D-arabinofuranosylcytosine treatment
G. Rainaldi, B. Pinto, T. Mariani, L. Vatteroni and A. Piras (Italy) 273
The biological activity of hydrogen peroxide. V. The crystal structure of a histidine-peroxide adduct and its biological activities
Y. Oya, A. Takenaka, T. Ochi and K. Yamamoto (Japan) 281
Trichlormethine hydrochloride and correlation of its mutagenic and toxic effects on male germ cells in mice
I. Sýkora and D. Gandalovičová (Czechoslovakia) 291
